Dr. CRAWFORD having been elected to St. THOMAS'S HOSPITAL, I presume to offer myself a Candidate for the Office which he has held with so deserved Reputation in the GENERAL DISPENSARY, and to solicit your Vote and Interest in my Behalf. Should I succeed him in that important Office, my unremitting Attention to promote the Humane Purposes of the Charity, shall prove how sensible I am of the honour conferred on me.

I beg leave to subjoin, for the satisfaction of the Governors, some Testimonials of my Medical Abilities, which I received on a late Occasion, from Men who deservedly hold the first Rank in Medicine.

I am,
most respectfully,
Bell-Alley, Coleman-Street, THOMAS MILLER.
13th October, 1783.

Testimonial from WILLIAM CULLEN, M.D. Professor of the Practice of Physic
in the UNIVERSITY of EDINBURGH.

I Dr. WILLIAM CULLEN, Professor of the Practice of Physic in the UNIVERSITY of EDINBURGH, hereby certify, that Dr. THOMAS MILLER passed many Years in this University, in the Study of Physic; that he attended my Lectures for several Years with great Affiduity, and from several other opportunities I have had of knowing his Proficiency, I judge him to be exceedingly well qualified for the Practice of Physic. In Testimony whereof I have subscribed this at Edinburgh, the 21st of June, 1783.

WILLIAM CULLEN.

Testimonial from J. HOPE, M. D. Professor of Botany, and Physician to the
ROYAL INFIRMARY IN EDINBURGH.

EDINBURGH, June 21, 1783.

This certifies that Dr. THOMAS MILLER, who some Time ago had the Degree of Doctor of Physick conferred on him by the UNIVERSITY OF EDINBURGH, during his long Residence, always appeared to me a young Gentleman of much Diligence, good natural Abilities, and amiable Manners.---I had many Opportunities of witnessing his diligent Attendance in the ROYAL INFIRMARY here.

JOHN HOPE, M.D. & P.

Testimonial from J. GREGORY, M. D. and Professor of the Institutes of
Medicine in the UNIVERSITY OF EDINBURGH.

GENTLEMEN,

EDINBURGH, June 19, 1783.

DR. THOMAS MILLER having informed me that he is at present a Candidate for the Office of Physician to the MIDDLESEX DISPENSARY, and at the same Time having expressed a Wish that I should certify to the Governors of that Charity what I knew of his Proficiency and Qualifications in Medicine, I cannot do less than certify to you, that after applying to the Study of Medicine in this University for many Years, he obtained the Degree of M. D.---To this I beg leave to add that from what I had Occasion to know of Dr. MILLER's Character and Conduct, during several Years Acquaintance with him, and from the Diligence and Attention with which he prosecuted his Studies, and from the Manner in which he acquitted himself one Winter as my Clerk, during my Clinical Attendance at the Hospital, as well as from the Appearance he made on his different Examinations previous to obtaining his Degree, I have no Doubt that he made good Progress in the Study of his Profession, and that he is well qualified to act as Physician to a Public Dispensary.

I am,

Your most obedient Servant,

J. GREGORY.
